AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraph beginning at page 4, line 15 as follows:

In accordance with another aspect of the invention, as embodied and broadly described herein, methods and systems consistent with the principles of the invention provide a computer system for processing data by means of or in a software application, comprising:

memory means for storing program instructions;

input means for entering data;

storage means for storing data;

a processor responsive to program instructions; and

~~programm~~ program instructions adapted to carry out the method described above.
